A new way to collect liquid! PD-DII Pump

With this new concept, the pump that has been designed so the contents accumulate in the dish. It is possible to collect and use products such as nail polish remover when cleaning or correcting nails, or cleanser when touching up makeup with a brush* or cotton swab.

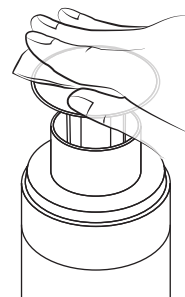

■ Large, easy-to-push head

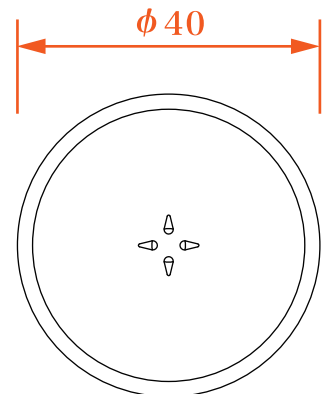

- PD-1024D(0524D) Pump usage -
- Contents are dispensed from the top surface. Cotton pads etc. are soaked by pushing downwards.

■ Over cap to maintain hygiene

- Hygiene can be maintained with the use of the over cap. It also prevents leakage from unintended pressing of the head.
