T-20 ϕ ·25 ϕ DI W CAP T-25 ϕ W CAP

New luxury diamond-cut design cap for slim tubes

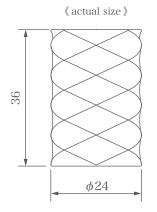

These 2-part premium caps are an ideal choice for beauty essence and anti-aging products. The compatible nozzle has been optimized for use with these types of formulas. (T-20 ϕ TUBE :1.3 ϕ / T-25 ϕ TUBE :1.4 ϕ)

 $20 \phi \cdots$ Cap has a larger diameter than the tube offering an image of stability.

 $25 \phi \cdots$ Available with a one-way value to protect the contents.

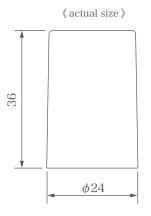

$T-20\phi\cdot25\phi$ DI W CAP — 2-part premium cap — $T-25\phi$ W CAP

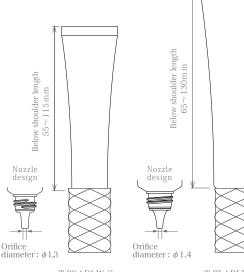

T-20φ·25φ DI W CAP (For $20 \phi / 25 \phi$ tubes)

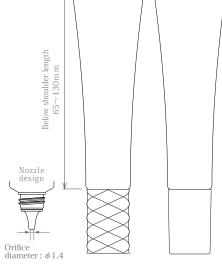

Material: PP Molding method: Injection

T-25 φ Nozzle W Cap (For 25ϕ tubes)

T-20 ø DI W Cap 20 φ Tube

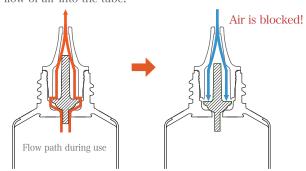

T-25 ϕ DI W Cap 25 φ Tube

T-25 φ DI W Cap 25ϕ Tube

One-way valve reduces oxidation of formula

 \Re Only compatible with the 25ϕ Tube

Reduces oxidation of the contents by blocking the flow of air into the tube.

Takemoto Colour Selection

22 standard colors and 7 gentle "nuance" colors (29 colors in total) are available for PP injection molded products. This selection helps to reduce the time required for new product development.

■ Tube below shoulder length table

*Capacity is measured when the tube is placed upright (2mm from shoulder base)

*Capacity is measured with water

Below shoulder length (mm)	Capacity (ml)	
	20 φ	25 φ
