## YP-B Series

## New PE bottle series for postal delivery featuring an elegant ribbed design!

Bottle : YP-B-150 / YP-B-180
Cap : 15-415 Flip-Top Cap

These stylish oval bottles are designed for postal delivery with a thickness of less than 30 mm . The series features a ribbed design and are made with BIO-PE material.
Thanks to the larger capacity in comparison to other postal-delivery bottles, they can be used for either product samples or commercial products.
Select the ideal design and capacity to suit your product concept.

15－415 Flip－Top Cap

〈 Front 〉
YP－B－150
Standard capacity： 150 mL

〈 Rear＞

〈Front＞
YP－B－180
Standard capacity： 180 mL

〈 Rear＞

Material ：HDPE（ contains 30\％biomass PE ）
Molding method ：Extrusion blow molding

## Idea size for postal delivery

The bottles are just 25 mm thick，so the total thickness will not exceed 30 mm even when an outer box is used．These self－standing bottles have a presence missing from flexible packaging．The slim design makes them perfect to take on the go．

## Display－friendly

 designSpace－efficient and easy to display on the shelf．

## Selection of packaging for postal delivery
